Confirmation for: PBG Geophysical Exploration Ltd., Poland

Dear Sir or Madam,

HPC AG certifies hereby, that PBG Geophysical Exploration Ltd. realized on our order geophysical audio-magnetotelluric surveys in CSAMT controlled source audio-frequency magnetotelluric mode (acquisition, processing, interpretation) for determination of water bearing zones (faults) and optimization of drilling locations in a defined area.

The works have been executed with the professional standards as well in the respect to the terms and requirements.
